Conditional Text using Widget State in FlutterFlow

Now we will learn how to use **Conditional Text** so that:

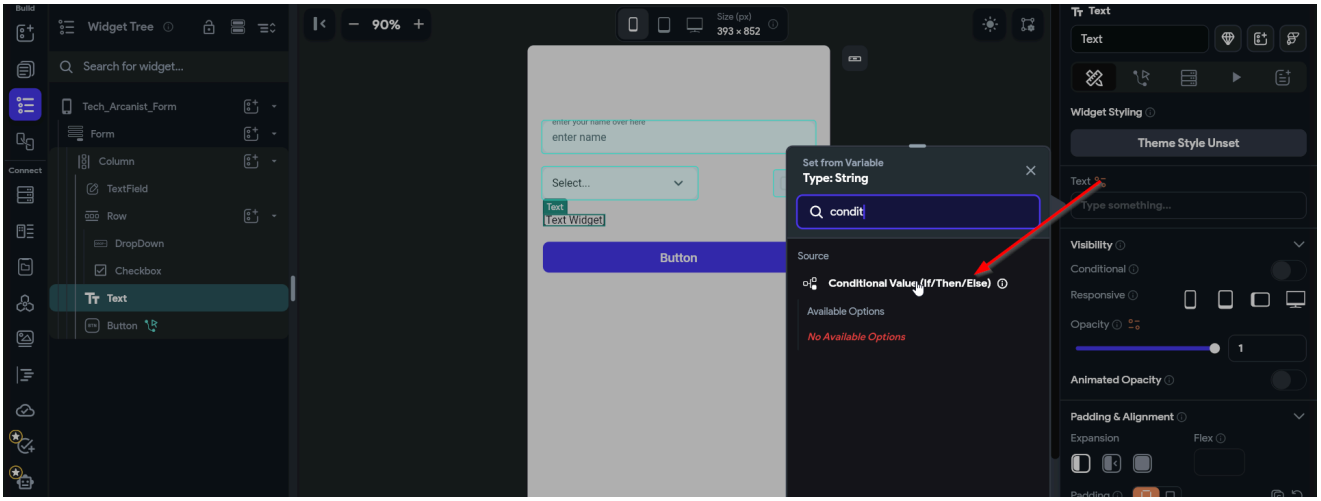

- If no option is selected → show **“Nothing is selected”**
- If an option is selected → show **“You selected – Option”**

Step 1: Add a Text Widget

Add a **Text widget** below the dropdown where you want the conditional message to appear.

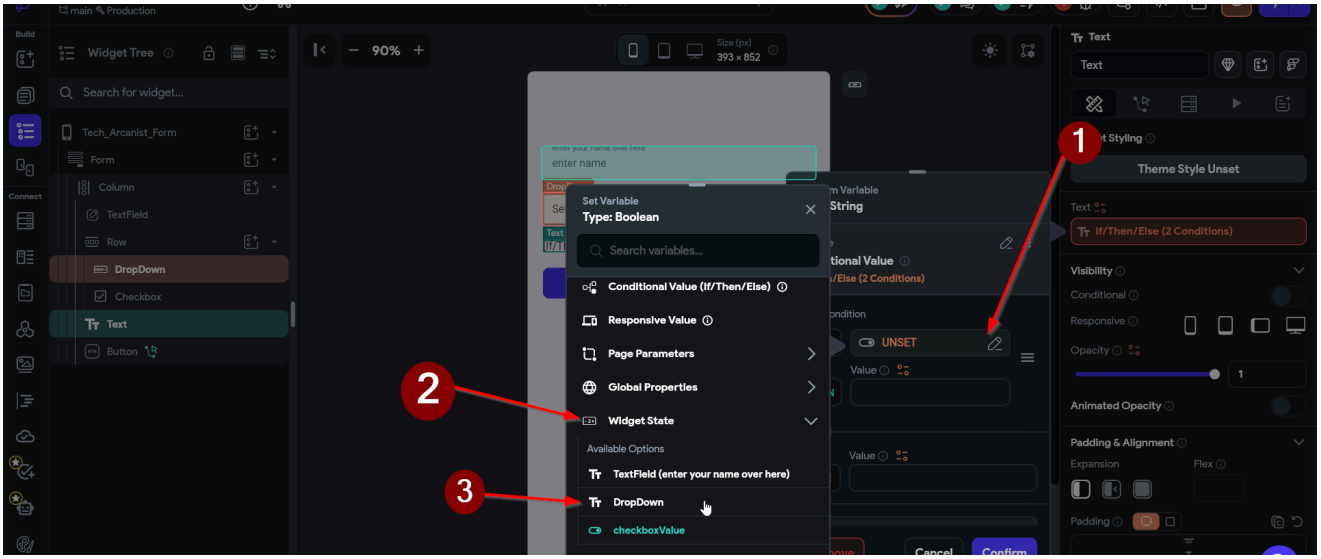

Step 2: Open Conditional Text

In the text settings:

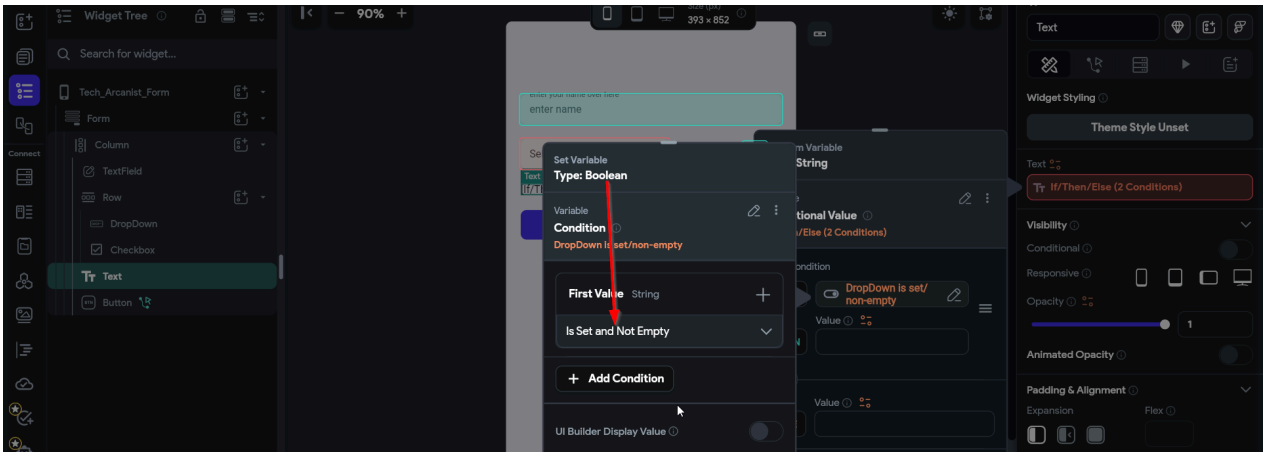

- Search for **Conditional**
- Select **Conditional Text**

Step 3: Configure IF Condition

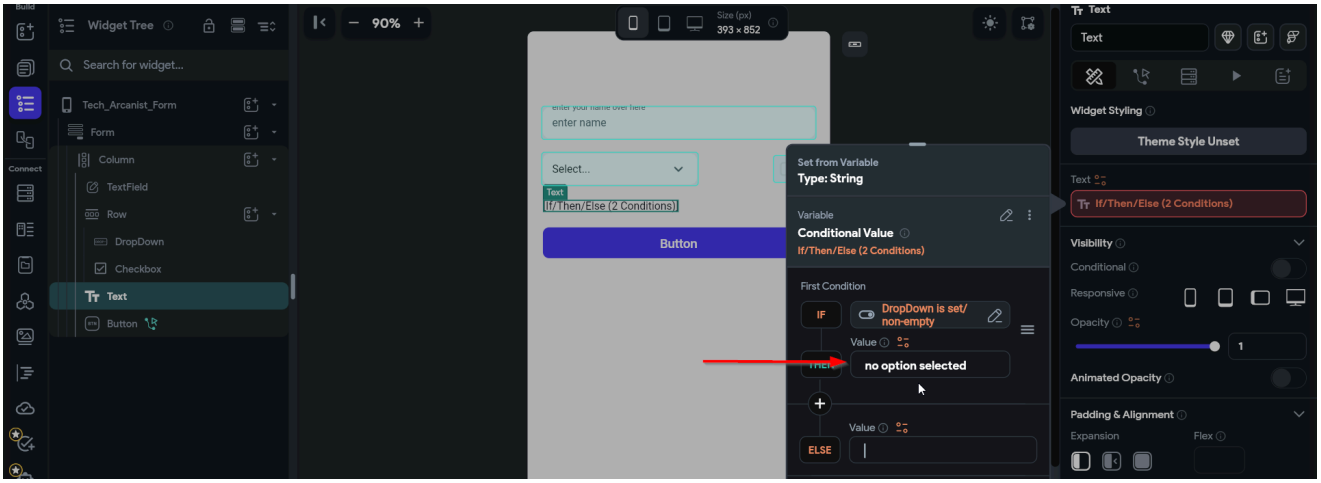

In the **IF** section:

- Choose **Widget State**
- Select the **Dropdown widget**

- Condition: **Is not set and empty**

Step 4: Configure THEN Condition

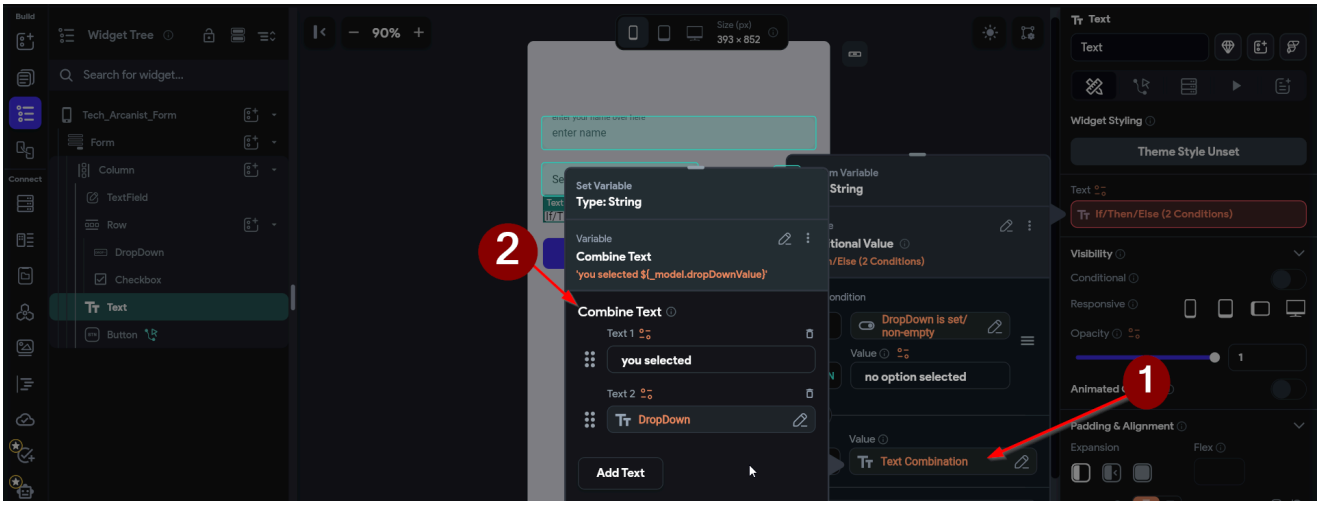

In the **THEN** section, enter the text:

Nothing is selected

This text will be shown when no dropdown option is selected.

Step 5: Configure ELSE Condition

In the **ELSE** section:

- Choose **Combine Text**
- Text 1:
  You selected -
- Text 2:
  Settings → Widget State → select **Dropdown widget**

This text will be shown when an option is selected.

Result

- If no option is selected →
  Nothing is selected
- If an option is selected →
  You selected – Option 2
